

Christian Belief in Conspiracy Theories

**An ISCAST Working Group
Sept–Oct 2021**

We're going to survey current research into conspiracy theories, including current forms and recent popularity. Over two months we'll summarise the issues they pose, especially for churches, and the best ways of responding. We invite interested people to join.

**Seeking understanding and ideas
for churches and society**

ISCAST explores the interface of science, technology, and Christian faith. Members range from students to distinguished academics.
