

ISCAST: Christians in Science and Technology

present

the ISCAST Lecture

RANDOM DESIGNER

Randomness • Purpose • God • Evolution
Can they go together?

Professor Richard Colling

Prof. Colling teaches microbiology, immunology, and molecular biology at Olivet Nazarene University in the USA, and is the author of "Random Designer," which explores the science – faith debate. He has personal experience of some of the difficulties of teaching evolutionary theory in a Christian context.

The above lecture will be given in two venues
